

# Start the new financial year being smart, simple and secure ...

At Peter Vickers and Associates our Bookkeepers have experience using a wide range of accounting and bookkeeping software and use this competence to help you select the most appropriate software for your business needs.

Dashboard from Xero

Mook Clifford  
Peter Vickers And Associates

Peter Vickers and Associates has been helping businesses to manage, protect and grow their wealth for over 30 years. From the outset, in providing accounting and financial advice to SMEs, it quickly became evident that bookkeeping was a major headache for most clients and is the most important function for a business to outsource. Peter Vickers Bookkeeping Services was born.

Our Bookkeepers have experience using a wide range of accounting and bookkeeping software and use this competence to help

you select the most appropriate software for your business needs.

Software such as Xero – an online accounting system that is designed specifically for small businesses, is smart, simple and secure and allows you to stay in control of your business anywhere, anytime.

As a Xero Certified Partner, Peter Vickers Bookkeeping Services is able to utilise and offer the full range of Xero functionality to all our clients in

Canberra, at a reduced rate.

If you would like to see how your bookkeeping can become quick and efficient, call Mook Clifford on 0401 875 889 for a demonstration.

**She is able to offer you a 2 month free trial of Xero (valid until the 31st of August) if you mention B2B when you call her or just say Xero.00** ■
